

Comfortable, Affordable Housing & Care for Quality of Life

MISSION STATEMENT

To deliver relationship based care - a method of caring and serving our elders which honours the sacred state of being present in each moment, developing a "knowing" of their life experience so that our elders can feel securely connected to their environment and those who create it with them.

VISION

Here, is home. Warm and welcoming, where residents direct each moment of their day. A house where emotional connections to the space, the neighbors, and the employees are nurtured. Here, in this home, we give honour to all who reside here while providing the highest quality services.

CORE VALUES:

Knowledge. Experience. Emotional Presence.

A CULTURE OF CARING

When combined with, these two words, 'Culture' and 'Caring', come together to form the basis of the ways we provide services to our Elders...

Our Custom - our habit - is to provide services that are thoughtful, compassionate, and loving.

We approach our residents with a soft heart, and we are attentive as we serve their needs with benevolence.
